

CUORE ANALOGICO

*The vibration you can't do without.*

*That sound that captures our primordial instinct before capturing our minds.*

*Earthtone is a way of listening.*

*Every sound is interpreted with all our senses and our intuition!*

*Earthtone isn't a place to visit. Earthtone is a way of living.*

*TuttiFrutti*

*100% Natural*

## Earthtone means ....

**E**ARTHTONE's philosophy is to look for a natural sound! | **E**xtrême definition. | **I**nfinite dynamic. | **A**daptable use of clean sounds, but also of crunch ones. | **E**very element has been carefully studied in order to give the guitarist the chance to fully express himself. | **E**arthtone never forgets its fundamental principles. | **O**ur philosophy is very simple: reconsider and optimize the sound you have got in your head and translate it through analog circuits! | **T**he term Analogue has a very important meaning! **I**t is older than VINTAGE.. | **V**intage is a fashion, something that has been taken from the past, but that has got to deal with the present! | **V**intage won't be a trend anymore, ANALOGUE will!!! | **U**nlike the digital one, an analogue sound is not a fashion, but a physical concept! | **A**fter listening and deciphering the analogue circuits of the Seventies we are very proud to present these in our modern sounds! | **W**hen you come to visit us you will find the perfect environment for your listening necessities. | **Y**ou will find experts who will be able to understand your amplifying requirements. | **O**ur pedal line is original, but above all a Seventies ANALOGUE one! | **Y**ou will have the chance to develop your sound in studio! **A**lso, noise isn't taken for granted at Earthtone!

Armonic Dist. Max. @ 440 Hz:	15%
Tone High:	+5/- 20 dB a 5 KHz
Tone Low:	+5/- 20 dB a 150 Hz
Input Impedance:	100 K
Exit Impedance:	100 K

# Gioia

*JOY is the infinite freedom..*

JOY isn't only a word but also an emotion! JOY is the infinite freedom we experience when we reach the purity of desire.

JOY is the compromise, the right path, the perfect color, the most delicious sound that we have in our mind. In italian JOY is synonym of peace: the peace you find in your family, in your friends, in the most important values of life. JOY in italian also means balance, balance between high and low, big and small, loud and soft.

Earthotone JOY wants to privilege this balance and help the guitar player to reach the perfect combination of tone and harmonics without taking away substance to the whole sound.

Earthotone JOY is a transistor boost jfet with equalization section studied in order to adapt to the different combinations in the setup of a guitarplayer. With JOY you can range from a typical sound of the seventies with hollowed lows and cutting highs to a more jazzy sound passing through all the tone features that you wish. JOY can be used in any position in your pedalboard always obtaining an incomparable transparency and cleanliness.

Via Regina Pacis, 232 - Sassuolo (Mo) - Italy
